Where **recognition** comes to life!

mobilization

inspiration

celebration

emotion

These are the goals we thrive to achieve when we bestow a recognition award. A heartwarming smile, a tear of joy and never ending gratitude are usually the results that transpire upon receiving such a prized attention. This is Design Franc Arts' muse. This is what inspired our team for more than 30 years to design and create custom recognition awards. Whether you need a custom item designed from scratch or wish to choose from our exclusive repertoire of signature homemade and custom made items, Design Franc Art is the benchmark for quality and service.

By using state of the art machinery and technology, a vast array of materials, a high end customer service and unmatched quality, your recognition item will go out with a bang every time. Design Franc Art creates and personalizes its products locally, thus creating social and economical benefits for North Americans and reducing greenhouse gas caused by unnecessary transportation.

We hope that this portfolio of custom creations, alongside with items of our recognition award line, will help you bring ideas to life next time you are in need of an award to celebrate, recognize , acknowledge, inspire and mobilize.

A 3D illustration of a person in a thinking pose. Their head is composed of several interlocking puzzle pieces. Above their head is a large lightbulb. Inside the lightbulb is a red globe with the letters 'DFA' in black, which is crossed out by a red diagonal line. A dotted red line connects the puzzle pieces to the lightbulb.
